We’re All in This Together:
Using Goal Co-construction to Facilitate Feedback Conversations

Presented by Drs. Laura Farrell, Amita Modi & Samantha Stasiuk

As teachers, we are constantly being asked to ensure we give feedback to our learners. However, often times learners are unaware of receiving feedback, or feedback is mitigated to preserve relationship. Our workshop will discuss these and other tensions in the feedback literature. We will share findings from studies which took place at the Island Medical Program on using goal oriented feedback to address some of these tensions. Participants will be encouraged to explore their own teaching goals and how these goals help contribute to feedback discussions and ultimately an educational alliance. By the end of the workshop, we hope to provide participants with a framework to structure future feedback conversations with learners in their own teaching practice.

Tuesday, November 28th, 2017
Dinner: 5:30 pm – 6:00 pm
Workshop: 6:00 pm – 8:00 pm
Medical Sciences Building (MSB), UVic, Room 150

Following this workshop, you will be able to:
- Discuss feedback tensions in current culture of medical education
- Describe how goal-oriented feedback might address these tensions
- Identify where goal-oriented feedback could be used in your own setting
- Outline a plan for using goal oriented feedback including how to address potential barriers

Laura Farrell is a General Internist working mainly at the Royal Jubilee Hospital in the Urgent Medical Assessment Clinic and on the Clinical Teaching Unit. She is also the Assistant Dean, Undergraduate Education for the Island Medical Program in Victoria. Laura completed her undergraduate education at UVic, her MD at UBC and her IM residency in Calgary. After beginning her career in Lethbridge, AB, Laura moved home to Victoria where she has been practicing for the last eight years. Last year, she finished her Masters of Medical Education through the University Dundee with a research focus on Goal Oriented Feedback.

Dr. Modi completed her MD at the University of British Columbia, followed by a residency in Family Medicine and a Diploma in Sports Medicine. She is a Fellow of the College of Family Physicians of Canada and has practiced family medicine in Victoria for over 20 years. Dr. Modi has a long association with medical education, both with the UBC Family Medicine Residency program as a clinical instructor and for five years as Lead Faculty for Evaluation and Assessment and with the Island Medical Program as a tutor, physician mentor and examiner. She is currently a Master Teacher and Year 4 Site Director with the Island Medical Program, and OSCE Director, UBC MD Undergraduate program.

Dr. Samantha Stasiuk is a second-year Clinical Educator Fellow at the Centre for Health Education Scholarship (CHES). Dr. Stasiuk graduated from the University of British Columbia’s Family Medicine Residency Program at the Victoria Site and works as a locum family physician with a special interest in Family Practice Obstetrics and youth health. She is enrolled in the Master of Health Professions Education program at Maastricht University. Dr. Stasiuk is involved in teaching with the Island Medical Program and with Family Practice residents.
