LISTEN TO YOUR GUT:  
THE ROLE OF THE GUT-BRAIN AXIS

Let’s Talk Science with Med Students at UVic

- How do the microbes in your gut affect your mood?
- How is this altered by Inflammatory Bowel Disease?

Join Island Medical Program first-year students Ashley Yip and Tiffany Miller for a talk about your gut and how it affects you.

Friday, April 17 @ 12:30 – 1:30 pm  
Medical Sciences Building, Room 150

Refreshments available | This is the latest in a series of medical student presentations
